W. P. WALTON.

CRAB ORCHARD, LINCOLN COUNTY.

—Mrs. Tarrant will open a boarding school for young ladies about the 1st of October in her house on Lancaster street.

—Little James Holman is very ill with malarial fever. His sister, Miss Katie, is quite sick, too, and has been for sometime. —Crab Orchard is unusually gay this summer and we will venture to say that it has had more pretty visitors than any town in the county.

—The rain last Friday night kept many of our young people from attending the ball at Dripping Springs. The Crab Orchard string band furnished the music for the occasion.

—Mr. S. R. Kennedy, who has been telegraph operator at Paris, Tennessee, has gone to St. Louis to accept a better position. Mr. Sim's many friends in his old home will be pleased to hear of his good fortune. Mrs. Eva Smith gave a party last Friday night to her little niece, Miss Seger. Those who were present say the refreshments were delightful and the evening a most pleasant one in every respect. Mrs. Jael Cooper, of Kansas City, Mo., is the guest of her parents, Mr. and Mrs. C. A. Ridd. Miss Alice Ward has gone to Richmond to attend the fair. Miss Mary Bronaugh, of Nicholasville, is visiting Mr. R. H. Bronaugh. Col. John B. Fish, of Pineville, is in town Sunday, mingling with the fair sex. Mrs. Rhoda Higgins and Miss Bettie, of Greenwood, are the guests of Mrs. George King. Instead of Miss Baker, it is Lucy Barkley, of Jessamine, who is visiting Miss Belle Livingston. Mrs. Julia King and her guest, Miss Helen Chestnut, of Lexington, are attending the Harrodsburg fair. Mr. S. W. Cotton, of Middleburg, paid C. O. a flying visit Sunday. Mr. and Mrs. W. T. Stephenson are visiting relatives in Mercer. Mr. and Mrs. W. H. Higgins, of Stanford, spent several days in the country with his parents, Mr. and Mrs. W. M. Higgins.

A curious and interesting relic of Indian barbarism was received at the war department a few days ago. It consisted of a necklace of human fingers. Originally there were eleven fingers strung together after the manner of necklaces of bear's claws, but three had been lost. The ghastly adornment was captured in an attack on the Northern Cherokees in 1876 and each finger represented a life taken by the owner, the big medicine man of the tribe. The fingers had been preserved by opening the skin, removing the bones, crapping away all the tissue and fatty substances, replacing the bones and subjecting the skin to some tanning process. The necklace was sent to West Point by Capt. Bourke, who is now engaged in preparing some historical matter relating to the Indians. It was brought from West Point to Washington in order that it may be reproduced in paper mache at the Smithsonian Institute. The scientists of that institution are quite enthusiastic over it, regarding it as a precious specimen of the barbarous habits of the Indians, who are now fast disappearing. War Department officials, however, look upon it with disgust, whenever they are able to summon up sufficient hardihood to take a peep at it.

How to SCARE SNAKES.—A gentleman who recently returned from the western coast of Africa tells a New York Mail writer how the natives provide against the dangers of venomous snakes, which abound in those regions. "Whenever it is deemed necessary to penetrate a certain vast morass which abounds in snakes, the natives simply rub the soles of their feet with garlic and oil. The scent of the garlic is too much for the delicate stomach of the reptiles and they crawl away as fast as they are able. This insures almost absolute safety. The box constructor even hesitates to tackle a man smelling with this odoriferous vegetable. Another method employed by the natives when they wish to sit to rest is to swish the air with rods. The peculiar noise of the rod seems to inspire the serpents with terror, for they hasten away out of hearing of the sound."

The story that kissing was introduced to England by Rowena, daughter of Hengist, the Saxon, is pretty enough to be true, but it probably isn't all the same. As the story runs a banquet was given the British monarch, at which the Princess, after pressing the brimming beaker to her lips, saluted the astonished and delighted Vortigern with a little kiss, after the manner of her own people. Rowena may have been a real nice girl, but we believe that Mother Eve gave the first lessons in osculation. [Chicago Journal.]

Says Bob Ingersoll: "My idea of a lawyer is the great English attorney who, having accumulated a fortune of £1,000,000, left it all in a will to make a home for idiots, declaring that he wanted to give it back to the people from whom he took it."

MT. VERNON, ROCKCASTLE COUNTY.

—The rats are eating up the growing corn in and around town.

—A very large crop of meat is reported throughout the mountains.

—Bessie, a little daughter of Fullen and Rebecca Francisco died of flux at Gum Sul plant Tuesday.

—The rock quarry at Wildie is shipping six cars of stone per day for the new Cincinnati bridge.

—Larkin Eldson was taken in by a U. S. marshal in the northern part of this county on the charge of liquor selling, and was lodged in the Richmond jail.

—We are told that the knights of labor are thinking of contesting the election in the legislative race between Ward and Webb, claiming that Ward is and was a citizen of Lincoln county and not eligible.

—Mr. George Sambrooke, of Livingston, who was taken to Louisville last week to the doctors, was brought home Monday night in a much worse condition, and it is thought that he cannot live through the week.

—A telegram from Marshal Hamilton, at Lancaster, Tuesday, says he has captured the man Johnson who broke into and robbed the shops here last week. It is said the same man robbed a shop at Crab Orchard Saturday night.

—Messrs. A. R. Dyche, of the Echo, and E. C. Walton, of your paper, were mixing with our people Monday and Tuesday in the interest of their respective papers. El added more than 30 names to his already large list of subscribers.

—Elated at their success and supposed gains in the gubernatorial and legislative races, the republicans are now figuring and organizing, expecting to elect a Congressman from this district next year. They will attempt to carry this county by 500 majority. May be they may and may be they may not.

—The negro convict, Henry Smith, who shot and killed the guard, Ball, in this county three years ago, will not be tried at this term of court on account of his term lacking 14 days of being out in the penitentiary. A bench warrant will be sent to Frankfort for Smith's detention on the expiration of his present sentence.

—Our stock is now full and complete. A splendid line of clothing; dry goods in abundance. Boots and shoes, hats and caps, a very large assortment. Hardware and table cutlery; harness and saddlery; farming implements, etc. The largest and best lot of notions in town. In fact anything wanted in the mercantile line. We desire the trade of the teachers. Come and see us. We will make it to your advantage.

F. L. Thompson & Bro.

—Mr. Frank Harris, train dispatcher at Rowland, was out on the line Tuesday making monthly inspection. He informed us that he would shortly leave to take the position of master of trains on the St. Louis division of the L. & N. All of the employees regret to give him up. He has been on the road so long with them and being a man who gives justice to all, it is not to be wondered at that he leaves so many well-wishers behind, who would be glad to see him succeed as well in his new position as he has in his old one.

—Samuel Brown has returned to his work in Louisville, after two weeks' sick leave. Mrs. S. W. Pariss is at Hustonville. Mr. Alex. Lusk walked 23 miles on election day to vote. Miss Bridie Denson, of Lebanon, is at J. W. Brown's. J. W. Runt, of the Stanford Mills, was here Tuesday, doing a good business. Conductor Cabler and brakeman Price are attending our court. J. M. Higginbotham, of Lancaster, was in town Tuesday. McDuff Ward has returned from Illinois, where he had gone to look at a farm with a view of trading. Alvah Pullins of Girard, was with us Wednesday.

—Judge Morrow opened the summer term of circuit court at this place Monday morning. After charging and instructing the grand jury at some length as to their duties in ferreting out those who have broken the laws of the land, for which whisky men came in for a goodly share, the regular order of business was taken up. A few minor cases have been tried and disposed of. Some cases against the liquor men were tried. In one case the seller was fined \$25. The prosecuting witness, a London gentleman, walked up to the clerk's desk and deposited the amount. Below is a list of the juries:

Grand Jury—J. W. Marlow, W. D. Mullins, W. P. Hitt, James Roberts, P. P. Singleton, J. W. Gentry, F. P. Parker, W. B. Whitehead, Lewis Rowlet, Joshua Cummins, W. C. Burdett, J. M. Jones, H. C. Gentry, D. S. Davitt, Micajah Southard; M. J. Cook, foreman.

Petit Jury—H. J. Mullins, Henry Maguire, John Carmichael, James Cocks, Adam Lowery, J. S. Gidd, Sr., John Adams, Wm. Kindly, William McKinney, Jas. French, Gran Price, W. J. Chestnut, George Gentry, W. G. Capps, Walk Mullins, Elijah Owens, Milton Durman, Jones P. Fish, J. F. Purrell, L. M. Houk, David Griffin, J. D. Pennington, W. T. French.

—In the make-up of the juries it will be observed that the gentlemen composing the grand jury have two democrats to deliberate with them and among the petit jury will be found four of that political faith.

—The case of the Commonwealth against John Mullins for shooting at Conductor Cabler was tried and he was fined \$75 and costs.

—The grand jury indicted a man and his wife, who live at Livingston, named Graham, for cruel and inhuman treatment of their six year-old girl, who, it is said, died of injuries received at the hands of her parents. It is alleged that the child was arrested and beaten until she was a mere skeleton and was at different times placed upon a hot stove by her inhuman father. The parties were arrested Wednesday and are held for trial next Tuesday, when the particulars will be learned.

LONDON, LAUREL COUNTY.

—What is not hot?

—Crops are suffering extremely for rain.

—Born, on the 5th inst., to the wife of G. D. Jackson, a girl.

—A little son of Wale Goff, at Pittsburg, died Tuesday morning of flux.

—James Dees was kicked by a horse a day or so ago and badly hurt.

—The official count in Laurel gives Webb a majority of 4 over his republican competitor, Sam Ward. Bradley's majority was 505.

—Mr. and Mrs. W. A. Parsley have gone on a tour through the eastern counties. Deputy Sheriff Ebbitt, of Palaski county, was here the first of the week. Prof. J. M. Claggett has returned from a trip to Cincinnati. His wife and child are still in the city. Dr. T. M. Hill and little son, Manchester, are in town. J. H. Jackson, J. W. Jones, A. L. Ruid and T. J. Canizar, of this city, attended court at Mt. Vernon in the Mullins case. "Smiling Dave" Jackson and better half left Tuesday morning for an extended trip through the Licking, Big Sandy, Kentucky and Cumberland river counties. Uncle Peter Felton is out again from a painful illness. M. J. Connel, section foreman, is just out after a severe attack of pneumonia.

BRODHEAD, ROCKCASTLE COUNTY.

—Many of business men are ordering coal for winter use.

—The dry weather and scarcity of water has forced some of our citizens to dig cisterns. Mr. John Perkins takes the lead.

—The fourth term of Brodhead Academy will open Sept. 5th, under the supervision of Miss Alva Carson. Trustees, patrons and friends are cordially invited to visit the school.

—Mrs. A. E. DeHoff, of Somerset, and Miss Jennie Payne, of Crab Orchard, are visiting friends here. George Melvin, of Lily, made a flying visit to our village this week. C. A. Bridges, of Lebanon, spent Sunday with friends here. Mrs. Lizzie Butler is on the sick list. Miss Eliza Jones and Miss Lucy Newcomb are very low with consumption.

THE OLD, OLD STORY TOLD AGAIN.—My lover came down to the garden gate, and he whispered so soft to me—(O well I remember, the hour was late, and we stood by the chestnut tree; and he gathered me up in his arms so strong, and his eyes were slight with love; and little we cared for the nightingale's song, in the limb of the tree above!) His voice was as soft as a golden lyre, as he whispered his thoughts to me, and his eyes were filled with heroic fire, that was grand for a maid to see. And what were the words that my lover said, as we stood by the gate alone? O how gently he lifted my drooping head, and he said in his manly tone—(O I seem to stand by the gate again, as I stood in that night in June, while the nightingale murmured his happy strain, in the light of a happy moon! And the glad, glad thoughts that came to my breast, as he whispered these words to me! The sun was hid in the golden west, sunk low in the flowing sea! And my love sighed lest his words should meet, a short and cruel rebuff, as he cried in a voice that was strangely sweet, "Well, say, is this not enough?"—[Atchinson Globe.]

She was an extremely pretty girl, even for a St. Paulite, and her name—well, society has "got it on the list." She was trying on the three-story and a basement hats now in vogue and chatting with a friend who happened in the milliner's at the same time. "Dear," said the friend, "I thought you were to be married this June?" "Well, I was to have been; but, you see, Earl's so abominably short, and we look absurd together with all my swell hats, so I just told him that I loved him as much as ever, but he really must wait till lower hats come in. Yes, he was very unreasonable, but I was firm. I told him I was really very sorry, but there would be sure to be a reaction against the high hats by next spring—any way, willy nilly, I wouldn't marry him till they went out."—[St. Paul Pioneer Press.]

"The handsomest men in New York, said a well known physician the other day, 'are the bar tenders. The modern bar tender of a first class bar-room is required to be abstemious in his habits. Saloon keepers as a rule, do not want a man around them who drinks. The result is that the bar tenders have good complexions and clear eyes. They have plenty of time to pay attention to their personal appearance, and as a class make up better than any other set of men in New York. You might put a hundred of them in a ball-room and they would outshine the pick and flower of New York aristocracy.'"—[New York Tribune.]

LANCASTER COUNTY DEPARTMENT.

Lancaster.

Engleman & Farria's stallion now in training at Richmond, is reported as being very fast and improving rapidly.

—C. Price's 4 year-old gelding is now being handled by Mr. Traynor, of Richmond. Reports from him are very favorable. He is a trotter.

—The residence of James H. Farria, who lives near Camp Dick, was destroyed by fire Wednesday. He saved very little of the furniture.

—Capt. T. A. Ekin has just returned from Lexington, where he bought the horse Arthur Sims, the fine stallion which made the season at Maples this year. Price paid \$1,500.

—Sam Miller has sold his Shetland pony, "Titwillow," to Dr. White of Memphis, for \$100. This is the second one he has sold for that money. He still has the dam of both ponies.

—Henry Johnson, alias Brooks, who is accused of stealing a lot of tools from Mr. Gentry at Mt. Vernon, was arrested here by Marshal Robert Hamilton Tuesday. Johnson had disposed of the tools to sundry parties in town and was leaving the city when arrested. He was taken to Mt. Vernon yesterday by the marshal.

—W. H. Harris went to Cynthiana Tuesday to take a position as operator there. Jennie, the beautiful little daughter of Mr. O. T. Wallace, of Point Leavell, is very ill of inflammation of the bowels. Mrs. Arch Walker lies very ill at her residence near Point Leavell. Jesse Doty, wife and one of his children are all sick with the fever at Hyattsville.

—City Notes.—The Court House bell is cracked and jare upon the nerves of our citizens, who have been wont to glory in its melodious notes. Rev. J. A. Munday continues to draw large crowds. Logan & Sandifer will soon be ready to fire their brick kiln. The hog law is suspended for the present. I have just learned that Dr. Morgan, who bought the patent stove heater, which used water and oil as fuel, was victimized, as the party selling the same, had no right to dispose of it. They are at work again at the Lancaster Mills boring for water. The hole is 90 feet, and no water to amount to anything yet. Judge Hughes has been quite busy in court this week. His decisions are very fair, and he delivers his opinion in a very impressive manner.

The Lexington Fair Association, the best association of its kind in America, will hold its regular annual meeting of five days beginning Tuesday, August 30. The catalogue is before us; the programme is excellent. For years this association has prospered and its success is in the main due to the enterprising and safe men always at the head of affairs, for no better men live in the State than its officers and directors. The coming meeting promises to be the best in its history, surpassing the many brilliant events in past years. Major P. P. Johnston, our ex Senator, is President of the association, and Col. Thomas L. Martin, secretary, which is sufficient to recommend it to public favor. Our former friends should remember that it is not quite three weeks distant and that now is the time to begin getting stock in good condition for exhibition. The Floral Hall, which has always been a leading feature, attracting thousands from every section of the country, will be open on the first day, and no admission will be charged to ladies or children under 12 years old.

—For weeks past a hot, scorching sun has blazed down day after day upon an agricultural area embracing 75,000 square miles in the Northwest, burning the life out of all vegetation, drawing moisture from the earth and drying up streams. Cattle are starting to death by hundreds and famine stares the unfortunate farmers in the face. The drought is the worst ever known in the section.

Celia Forbing, of Kenton, O., was walking through the new court-house at Tiffin with some young friends. Suddenly she stepped up to the marriage record and dared any young man present to take out the papers and make her his. The challenge was accepted by a young man of the party and the knot was tied at Fostoria the same night.

Gen. Black puts a good deal of effort into singing pensions, and veterans would prize them for that alone if they could see him writing. He was shot all to pieces in the late war, and both arms are very stiff. It is quite as painful to watch him write as it is for him to do it.

Since 1880 the population of Kansas has increased from 995,000 to 1,600,000; its 3,000 miles of railroad have become 6,000; its 5,000 school houses have grown to 8,000 and its personal property from \$160,000,000 to \$300,000,000.

"You want a keepsake that will always remind you of me?" she said. "I do, darling," he said tenderly. "What's the matter with myself, she whispered." There will be a wedding shortly.

—The night operator at Bordentown, N. J., fell asleep, and a collision occurred on the Pennsylvania Railroad which resulted in one death and serious injuries to several trainmen.

G. A. BENEDICT & CO.,

STANFORD, KENTUCKY.

Well Drillers and Pump Adjusters.

Wells Drilled to order and pumps furnished at factory prices.

NOTICE.

To the Citizen of Lincoln County:

Having recently equipped a fine Roller Mill in the town of Stanford that we defy any Mill to equal in quality of flour, we think the citizens of the county should have county pride enough to patronize and sustain the same. We wish to inform whom it may concern that we are in the market to buy your wheat and corn and will always give the highest market price for same. We have added some new machinery to our corn meal department and can now make meal to suit any person. It cannot be equaled by any other Mill in this vicinity. We sell a trial in our flour and meal department. All having grain in our line for sale will please call at Mill, where our agent can be found at all times, who will give the best prices for same. Brand and ship stuff as in stock.

W. A. POTES, Supt.,

Stanford Roller Mill Co.

Notice of Incorporation!

Notice is hereby given that the undersigned have formed a corporation and have recorded the articles thereof in the clerk's office of the Lincoln County Court, pursuant to Chapter 56, Gen. Statutes of Kentucky.

I. The name of the Corporation is the "Cumberland Valley Land Company."

II. The general nature of the business is to buy and sell lands in Harlan and Bell counties, Ky., to mine coal and to manufacture lumber.

III. Its principal place of business is Stanford, Kentucky.

IV. The capital stock is fixed at \$150,000, with privilege to begin on \$10,000. Each share is \$100, to be paid in money.

V. The Corporation shall begin business on the 25th day of July, 1887, and continue 25 years.

VI. The affairs of the Corporation are to be conducted by a Board of seven Directors, from which a President, Secretary and Treasurer are to be elected. The incorporators shall compose the first board, and the election thereafter to be held on the third Wednesday of July annually.

VII. The Corporation shall incur no debt greater than one-fourth of its paid up stock.

VIII. The private property of stockholders shall be exempt from corporate debts and liabilities.

IX. The Corporation shall possess all the powers prescribed in Chapter 56, General Statutes of Kentucky.

GANTER'S

CHICKEN

Cholera Cure!

Thousands of dollars worth of chickens die every year from Cholera. It is more fatal to chickens than all other diseases combined. But the discovery of a remedy that positively cures it has been made, and to be convinced of its efficacy only requires a trial. A 50-cents bottle is enough for one hundred chickens. It is guaranteed. If, after using two-thirds of a bottle, the buyer is not thoroughly satisfied with it as a cure for Chicken Cholera, return it to the undersigned and your money will be refunded.

W. P. WALTON.

THE official returns are nearly all in and they show that Gen. Buckner's plurality will be between 18,000 and 20,000. This is not a good showing by any means, but considering that the democratic ticket had to fight three others it is not near so bad as it might be. That all of the prohibition and labor vote came from the democratic ranks, is shown by the fact that Fox's vote of 8,000 and Cardin's of 5,000 added to the democratic plurality makes almost the exact majority of Cleveland over Blaine. So far as returned the vote shows that Buckner received about 25,000 less votes than Cleveland and Bradley about 8,000 less than Blaine. It is estimated that fully 100,000 people did not vote in the election at all and as the republicans nearly always turn out on such occasions, it is fair to presume that a big majority of the stay-at-homes are democrats, who will come out of their holes when occasion requires and wipe up the earth with Blaine, Sherman and any other son-of-a-gun that may be pitted against Grover Cleveland in 1888.

THE democratic party of Lincoln needs a thorough reorganizing. The late canvass shows that the county committee is not equal to its work. A majority of them not only refused to answer any of the calls for meetings, but appeared to take no interest whatever in the result. One of the number voted the prohibition ticket and we understand did all in his power for it. With such men in the camp it is no surprise that the army was routed, foot horse and dragoon. As the humble secretary of the committee, we know that with two or three honorable exceptions, the committeemen neither did anything for the party or offered to do anything. We need young, active and aspiring men to watch after the interests of the party and if those of the committee who have failed to do their duty do not resign they should be made to do so.

THE Louisville Times continues its tirade against the corset, which, it declares, like the rascals, must go. Sara Bernhardt is cited as a wonderful example of the anti-corseters, never having had her bony sides encased in one of the straight jackets. A bean pole would look as well with a corset on as Sara. It would stick out all around on her instead of acting as it is usually intended. If Logan could look upon some of the figures that we have, minus a corset, he would let up on the very necessary article and thank the inventor for contributing a big quota towards making the female form divine.

In his interesting column in the Courier Journal Col. Sam M. Burdett says that Col. Matt Adams cannot afford to accept the office of Secretary of State, with the beggarly salary of \$1,500, but when the hour comes for old man Simon Bolivar to appoint a railroad commissioner, his name will appear on the list, or the writer is very much mistaken. Speaking of Gov. Buckner's cabinet, if the old gentleman has chosen his men he is a good hand to keep a secret, for nobody seems to know his intentions, although he will be inaugurated two weeks from next Tuesday.

A WARNING to cigarette smokers comes from New York. A youth there who got away with two packages of the poisonous things daily, died suddenly and upon a post mortem being held it was discovered that the cause of his death was smoker's heart, attributable to their excessive use. We don't know that it makes much difference, however. A boy that does nothing but smoke cigarettes is hardly worth lamenting. The sooner he and his imitators are taken off the better for the world, but it is hoped that boys of whom something is expected will take warning and let up on the silly, nasty habit.

A COUPLE of cousins at Point Pleasant, W. Va., named Townsend, paid court to the same young lady and she, unable to decide between them, said she would become the wife of the one who drew the longest straw. Bradley Townsend was the lucky dog, but he was not to be permitted to enjoy the prize, for the treacherous Amos immediately put a ball through the heart of the girl and made his escape. He is still at large but a rope has already been tied for his worthless neck.

BRO. MULLINS says he is a minor and couldn't vote, but if he could have put in one it would have been for the straight democratic ticket and adds: While we believe in doing everything for the advancement of the temperance cause, we do not believe in supporting a prohibition candidate who draws his strength almost entirely from the democratic party and has no hopes himself of being elected and whose work tends to aid the republican candidate.

Downs in Paducah a negro woman apparently died and after being prepared for the grave was placed in her coffin. Preparations for the burial proceeded and the mourners began to assemble to pay the last sad rites, when all at once she popped up from the narrow quarters. There was consternation and a scramble, but the woman assured them that she was not dead by a jug full and their fears were finally allayed. She is now going about.

THE Harrodsburg Democrat is appearing as daily this week, full of breezy local and nicely set advertisements. Brother Spotswood deserves to be congratulated.

FLOWER, the New Yorker who thought that the only requisite for a presidential candidate was a "barrel," of which he possessed several, and who thought he was in the fight in 1884, now rises to remark that Cleveland cannot be re-elected if nominated. Flower has never forgiven the man of destiny for walking off with the State of New York and the nomination before, and the father to his thought now is nothing save his wish.

Gov. FORAKER, who got a little coveted notoriety out of the rebel flag business by making an use of himself generally, has invited Cleveland in a gushing letter to visit Ohio, but the man of the White House has not seen fit to honor the fellow with even an acknowledgment.

NOTES OF CURRENT EVENTS

—The Kentucky Military Institute property is advertised for sale by the Franklin county Master Commissioner.

—Otis Tucker, white, and Fleece Wilson, colored, were killed by a premature explosion of a blast in Henry county.

—Alex. Walker, a colored prohibition speaker, was murdered at Prairie Grove, Tex., at the conclusion of an address.

—The sugar crop of the Sandwich Islands is estimated between 90,000 to 100,000 tons, as against 108,000 tons last year.

—Jerry Pagels, sentenced to be hanged August 12 at St. Louis, committed suicide in his cell by cutting the artery of his left arm.

—William Berry fired into a trio of men who were stealing his corn, in Jessamine county, and killed one of the number, Jim Murphy.

—Winchester has a \$2,500 steam laundry in operation, which we trust will pan out better than our miserably-managed concern.

—A syndicate of New York and Pittsburgh capitalists have purchased 100,000 acres of pine forests in South Carolina and Georgia.

—M. Maquet, editor of a Paris paper, has been fined 200 francs and sentenced to two months' imprisonment for unfairly wounding his antagonist in a duel.

—The losses by fire in the United States and Canada for July amounted to \$14,000,000, which is double the average loss for that month in the past 12 years.

—Charles Williams, of Logan, W. Va., shot and killed James Aldridge, by whom he imagined himself aggrieved, and was immediately thereafter lynched.

—The returns so far received by the Secretary of State indicate that the majority of the qualified voters of the State have voted in favor of a new constitution.

—John Doore was fatally shot at a picnic in Calloway county, by Frank Collier, the manager. As he fell he fatally cut Collier with a knife that he had in his hand.

—David Hampton, a 16 year old horse-thief, who escaped from jail at Mountain View, Ark., was shot and killed Monday at Melbourne, that State, while refusing to be taken alive.

—Jessie Logsdon, aged 17 years, has been sentenced to two years in the penitentiary by the Hart Circuit Court for a criminal assault upon a seven year old girl. He should have been hung.

—A fire which originated in the Adams Express stables in Louisville, burned that building and four horses, besides the Central Tobacco Warehouse with 200 hog-heads of tobacco. Loss \$38,000.

—Gen. A. W. Doniphan died at St. Joseph, Mo., Monday evening. He was a member of the celebrated Peace Commission during the late war and was mentioned for the presidency in 1876.

—The National Veterans' Association, of Des Moines, Iowa, passed a resolution denouncing and repudiating the utterances of Tuttle and others, in connection with the projected visit of the President to St. Louis.

—The W. O. Tyler Paper Co., Chicago, has failed for over \$300,000. Bad debts did it. The break also caused the Kentucky Lithographing Company to go under, as it was owned by John Rebel, one of the company.

—Mr. W. H. Newman, a Kentuckian, has been appointed Third Vice President of the Missouri Pacific road, with which he has been long connected. Mr. Newman is a cousin of Mr. Eugene Newman, the well-known "Svayford" of the Courier Journal.

—Over confidence is always a menace to certain majorities, and the weakness of the republican ticket and programme increased this over-confidence among the Kentucky democrats. To a man a thousand miles up a tree that seems about the size of it.—Watterson.

—Secretary Fairchild opened the first bids for the sale of the Four-and-a-half bonds to the Government, and accepted that of the Suffolk Bank, of Boston, which offered \$280,000 on terms that will be at a profit of a little over two per cent. to the Government.

—R. Lowry, a nephew of Gov. Lowry of Mississippi, shot and killed a colored man at Indianapolis, in that State. The same young man got into sundry disreputable rows during his attendance at the Louisville Law School and established a bad character generally.

—The grand jury of the Ryan Circuit Court has indicted Z. T. Young, Allie Young, John Trumbo and Green Mannin for confederating and conspiring to kill Howard Logan, and John Trumbo and John Keeton for shooting Logan. The Youngs and Mannin were released on \$2,500; the others \$1,000 each. Judge Cole has ordered the sheriff to summon fifty petit jurors in Fleming county, and has extended the term of the court for thirty days. He announces that a further extension will be made if necessary.

—A boy named John Johnson fell into a coke oven at Wyant's, W. Va., and was burned to death.

—A ghost player at Baltimore has come to grief. He wound himself in habiliments supposed to be worn by the spectres and went to where some men were at work. Instead of fleeing, one of the number let go a ball at the figure and it fell pierced through the head by the missile.

—Bill Johnson, a stage robber, now languishing in an Idaho jail, speaks despondently of the business as follows: "Stage after stage has been held up without getting a nickel and it seems as though all the money in the country was in the hands of bankers, the railroad managers or the express companies."

DEATHS.

—John M. Clay, the last surviving son of Henry Clay, died suddenly Wednesday at his home near Lexington, in the 65th year of his age.

—Capt. Sam Crawford, conductor on the Main line, who frequently ran extra on this division, died Wednesday from the injuries he received at Horse Cave while coupling cars.

—John Menefee Elmore died at his home in the Walnut Flat neighborhood at 4:30 Wednesday morning of fever, age 50 years. A wife and a number of children are called on to mourn his loss, while his neighbors also generally deplore his demise. He was a strictly honest and clever man and endeavored to honor the Christian Church, of which he was a member, by living an upright and blameless life. How highly he was held in the esteem of his neighbors is shown by the fact that they had recently elected him a justice of the peace, a token of appreciation of which he was very proud. The funeral sermon was preached at Goshen yesterday, after which the remains were interred in the Anderson grave yard.

LAND, STOCK AND CROP

—A. T. Nunnally bought a lot of stock in the Walnut Flat neighborhood at 4 cts.

—Ad Catron, the clever trader, bought of Rockcastle parties 10 aged mules at from \$65 to \$110.

—Lehman shipped 27 car loads of cattle from Fayette to Europe, most of which cost him 4 cents.

—The peach season has opened in Delaware and will be a short one. Prices range from fifty cents to \$1.25 a basket.

—The Laurel county fair will be held September 8 and 9 at London. The are 70 premiums on the list of the two days.

—The Stanford Mills are now paying 65 cents for wheat, which is the same that is being paid in Louisville and only 3 cents less than Chicago.

—At the Richmond fair there were ten entries for the model ring, in which the prize was carried off by the bay stallion, Silver King, of J. E. & J. R. Farris.

—Chattanooga has given the William Wood Reaper and Mower Company \$125,000 and eight acres of ground for a plant, and that company will move their works from Youngstown, Ohio, in a few days.

—T. G. Barrow sold this week to T. C. Robinson 2,000 bushels of blue grass seed to be delivered August 1st, 1888, at fifty cents per bushel. The agent of Lehman Bros., has bought during the past week 300 cattle in the vicinity of Mt. Sterling, and weighing from 1,500 to 1,600 lbs. at 4 cents.

—[Winchester Democrat.

—J. M. Board bought of J. W. Moss 55 hogs that will average 250 pounds, at 41 cents. They brought \$5.35 at Cincinnati Wednesday. George Handy, of this county, sold to A. H. Vansant 36 acres of woodland off his home place for \$100 per acre.

—D. C. Terhune has bought within the past two weeks over 40 good mule colts, paying on an average for the No. 1 mares mules about \$70 and for the first-class cotton mules \$50.—[Harrodsburg Democrat.

DANVILLE, BOYLE COUNTY

—Mr. Henry G. Sandifer and children have returned from a visit to friends in Greensburg.

—Terra Cotta is not in condition and will not start Friday at Saratoga in the contest with Hanover and other celebrities. Later—He may run yet.

—Messrs. John Hoskins and U. Hopli, who live adjoining each other on the Shakerstown pike and who have been ill with Bright's disease, are reported barely alive this morning.

—Town Marshall George Wells, of Junction City, brought a negro named John Welsh to town this morning and put him in the work-house for 50 days for carrying a pistol concealed on his person.

—Mr. George Blakeman died Wednesday night at the family residence on Broadway. He had been blind and paralyzed for several years. The family came here from Garrard. Mrs. Blakeman is a sister of the late Judge Allen A. Burton.

—In noting the death of Mrs. Nichols your correspondent erroneously said she was the widow of Prof. James Nichols. The professor's name was Thomas and he was a brother of James, who was a partner of G. W. Welsh, Sr., in the dry goods business.

—A first-class ghost story was spoiled after creating much excitement in the establishment of Louis Cohn by the finding of a diminutive terrier of the female persuasion under the floor of a side show case. It was nearly starved and the wonder is how it got there.

—John Campbell, the aged and infirm colored man who was taken to Lancaster and put in jail on Saturday last, charged with selling liquor without government license, was promptly discharged on Monday by U. S. Commissioner R. A. Burnside as soon as he became acquainted with the true facts of the case. Wm. Crouch, Bettie Caldwell and Tom Slaughter, taken to Lancaster on the same charge, were held for further trial.

NOTES FROM ALL POINTS.

MAIL from London now reaches San Francisco in thirteen days.

The State of Massachusetts has over sixty-five thousand widows, half of whom are less than forty years old.

Ostrich eggs in California are bringing fabulous prices, the birds themselves sell at one thousand dollars a pair.

A squirrel of mumps lately struck the town of Rome, Mich. Over three hundred people had them at the same time.

The silver mines of South America annually produce silver estimated at the value of twenty-six million dollars.

It is thought the city of London will increase in population about three-quarters of a million in the next ten years. The births recorded every week are over a thousand in excess of the deaths.

The United States Government is accumulating a surplus of \$100,000,000 a year that it does not know what to do with, besides paying its indebtedness with unnecessary haste.

As an evidence of the advance of education in India it is stated that post-office statistics give an increase of over one hundred per cent. per annum in the number of letters and newspapers mailed in that country.

It is reported that Florida annually produces \$30,000 worth of honey, \$40,000 worth of strawberries, \$50,000 worth of hogs, \$30,000 worth of sheep, \$50,000 worth of beef, \$750,000 worth of sponges, \$300,000 worth of fish and oysters, \$3,500,000 worth of oranges, lemons, limes and pineapples, \$50,000 worth of sugar and molasses, \$20,000 worth of rice, \$200,000 worth of cedar and \$300,000 worth of other lumber and \$4,000,000 worth of cotton.

A piece of ground in Philadelphia, with a frontage of sixteen feet on Chestnut and thirty-four feet on Fourth street, was recently sold for \$55,000, or \$156 per square foot. It was necessary to complete a building site in the heart of the city, and therefore commanded this extraordinary figure. This is the highest price ever paid for real estate in America. The one next to it, perhaps, was on Wall street, New York City, where a lot sold for \$145 per square foot. The Philadelphia price was at the rate of \$5,500,000 per acre.

The relative increase in population in Canada is much less than in the United States. Indeed, it could not be otherwise while so many of those immigrants who seek Canada as a place of settlement move from that country to the United States every year. It is a fact that the number who leave Canada to settle in the United States exceeds the number of those who, emigrating from other countries, settle in Canada. The United States offers better facilities for the improvement of the condition of the intelligent and industrious immigrant than Canada affords.

The cloak worn by King Kalakaua at his coronation, and said to be still in his possession, was a rare and valuable garment made from the feathers of a species of bird indigenous to the Sandwich Islands and now extinct. These feathers, only two of which grew upon one bird, are of beautiful hue and are about the size of a silver dime. They were received from the natives at one time in payment of taxes, in which way some five thousand were collected and all woven into the royal garment. The preservation of this royal cloak requires the continual attention of a person engaged for the purpose.

An interesting phenomenon has for some time past been observed on the eastern coast of the Caspian sea. The Kara Bohas is an estuary nearly separated from the main body of the sea by a bank through which there is an inlet. The evaporation from this gulf is so great that a current continually sets in from the Caspian, and, as there is no return current, the water of the gulf becomes more and more saliferous, and a deposit of salt is in course of formation. The natural result of this would appear to be that in time this gulf will be cut off from the Caspian, and, being dried up will become an extensive salt bed.

FOR THE HOME CIRCLE.

If the little ones are troubled with canker sore mouth apply a little borax and honey.

Boiling hot concentrated lye will quickly cut the grease and clear and clean waste pipes that are clogged or offensive.

Rubber boots and shoes can be patched by the aid of a cement prepared from dissolving finely-cut rubber in benzine.

A person should never suffer from insect stings when a little carbolic acid is obtainable. A teaspoonful in a quart of water makes an alleviating wash.

An instance is given in which facial neuralgia was permanently cured by the application of warm water and ammonia and heated bricks wrapped in wet cloths, followed by friction of the extremities.

Those afflicted with corns may find relief, if not a cure, in the use of balsam of fir, which should be spread upon the corn and covered with a small piece of cotton.

HALF AN OUNCE of sweet oil containing a like amount of saltpetre is said to be an excellent lotion with which to bathe the parts affected by inflammatory rheumatism.

Those not provided with ice chests or refrigerators should never expose butter to the deleterious effects of water. A good plan is to cover the butter dish with an inverted earthen crock around the bottom of which may be poured water to keep it cool.

MANY young housewives who do their own laundry work, desire to acquire the art of polishing the linen. It requires practice, but of course there are many helps in this direction. One way of preparing the starch is mixing in a small piece of good butter. This, it is said, produces a fine gloss.

A BOTTLE of spirits of turpentine should be kept in every house, for its uses are numerous. A few drops sprinkled where cockroaches congregate will exterminate them at once; also ants, red or black. Moths will flee from the odor of it. Besides, it is an excellent application for a burn or cut. It will take ink stains out of white muslin, when added to them while boiling.

INDIAN corn contains a large amount of nitrogen, has anticonstipating qualities, is easily assimilated, cheap and very nutritive. Indian meal, in the shape of Johnny cake, hot cake, corn or pone bread and mush, relieved by copious draughts of pure cow's milk, to which, if inclined to dyspepsia, a little lime water may be added, will make a life now a burden, well worth the living, and you need no other treatment to correct your nervousness, brighten your vision and give you sweet and peaceful sleep.

TO PURIFY a room, set a pitcher of water in the apartment, and in a few hours it will have absorbed all the respired gases in the room, the air of which will have become purer, but the water utterly filthy. The colder the water is the greater the capacity to contain these gases. At the ordinary temperature a pail of water will absorb a pint of carbonic acid gas and several pints of ammonia. The capacity is nearly doubled by reducing the water to the temperature of ice. Hence water kept in a room awhile is unfit for use.

JULY 1ST, 1887.

Your Accounts are due and ready

PLEASE PAY PROMPTLY.

Unpaid Accounts of 1886 not Settled at once will be Collected by an Officer.

THE firm of Penny & McAllister having
dissolved, the accounts are ready for settle-
ment. Come at once and settle. You may
save cost.

PERSONAL.

—MR. R. L. DAVIS, of Crab Orchard,
was here yesterday.

—MISS ROSA RICHARDS left yesterday
for the fair at Harrodsburg.

—MRS. G. G. WINE has gone on a visit
to her relatives in Cloverport.

—MR. AND MRS. L. H. RAMSEY, of Lex-
ington, are visiting at his father's.

—MRS. G. C. AND J. W. POWELL
passed up to Dripping Springs Tuesday.

—MRS. LOUISA COX, of Casey, a good
subscriber, was here on business yesterday.

—MRS. FORRESTER and Miss Lucie
Besley spent a few days at Crab Orchard.

—MRS. LIZZIE AND HATTIE FISBACK,
of Danville, are guests of Mrs. Mattie Nev-
ius.

—MISS NANNIE WOOD, of Boyle, returned
with Miss Kate Hall and is now her
guest.

—DICK GENTRY left Wednesday
for Wichita, Kansas, where he will probably
locate.

—MRS. MARY DUNN and Misses Bettie
Paxton and Annie Dunn are spending a
week at Crab Orchard.

—MRS. WM. MARSHALL, of Parksville,
who has been visiting her sister, Mrs. T. P.
Hill, returned yesterday.

—TINSLEY MERRISON has charge of the
jail in the absence of Jailer Owens, who is
attending the Mercer fair.

—MR. T. F. SPINK, dispatcher on the
main line, and one of the cleverest boys on
the road, is here on a visit.

—MR. J. M. WRAY is still in a precari-
ous condition from the wounds received by
being thrown from a wagon.

—MR. R. S. LYLE has gone on the road
for the George W. McAlpin Co., of Cin-
cinnati, and is taking orders right and left.

—MRS. J. I. McKINNEY, is spending a
few days at Capt. G. H. McKinney's, after
a delightful month at Dripping Springs.

—MR. J. H. FISH writes that Florida
continues to boom. He has returned to
Orlando after several months stay in St.
Augustine.

—MRS. JUDGE JOHN FELAND and daughter,
Miss Mary, of Hopkinsville, and Mrs.
Lithgow, of Louisville, are visiting Mrs. A.
M. Feland.

—MR. G. C. KELLER, JR., is spending
the week at Harrodsburg and taking in the
stock fair and the other fair of that sleepy
little town.

—MR. M. W. ROSE, who has been here
for several weeks with the Florence Wash-
ing Machine Company, left yesterday for
Harrodsburg.

—We heard that John S. Bosley, of the
Winchester Sun, was here this week, but as
he did not call to see us, we believe it weak
invention of the enemy.

—MR. R. G. HALL went to Somerset yester-
day in response to a letter from the new
bank officials, who, it is thought, wish to
give him the position of teller in it.

—COL. TOM WATKINSON'S friends here
were treated to a short visit from him this
week. He is living at Little Rock, Ark.,
now and judging from his looks he is doing
well and enjoying life.

—MRS. W. O. SWEENEY, of Lancaster,
passed down to Louisville Wednesday to
attend the marriage of her cousin, Miss
Blanche Grable, to Mr. F. W. Lippold,
of the Exchange Tobacco Warehouse.

—OUR business manager is under lasting
obligations to Mr. John J. Cummins, of
Rockcastle, for very substantial favors
while at Mr. Vernon. Such a friend is sel-
dom found and we appreciate him when he
is.

—SUPT. P. T. DOWNS, of the Knoxville
Division, was here Tuesday, looking after
the interests of the line. There is hardly
a more capable or more courteous officer on
the road and the fact that he has worked
himself from the ground up, so to speak,
shows the material of which he is made.

LOCAL MATTERS.

BACON wanted by T. R. Walton.

THE Commercial Hotel, Louisville, Ky.,
has reduced its rates to \$1.00 per day.

THE bill of the season will be given at
Crab Orchard Springs to-night and many
of our young people will attend.

ANOTHER summer is drawing to a close
and no circus yet. It's over two years now
since one raised its tents in Stanford.

LICENSE was issued Tuesday to Mr. H.
F. Warner to marry Miss Elizabeth Hagg,
a pretty little German girl of the colony
in this county.

W. H. MILLER sold to J. T. Harris a lot
of an acre on Logan avenue in his exten-
sion for \$450.

THE Club gave a splendid little Hop at
Walton's Opera House Wednesday night
in honor of the visiting ladies, which was
fully attended and apparently greatly en-
joyed. Senator Kinney's superb orchestra
furnished the music.

FOR SALE—I have a few articles of fur-
niture that I will sell at a bargain. I am
obliged to leave Stanford soon and would
like to dispose of the furniture before Sat-
urday. The articles can be seen at room
No. 6, Myers House. Frank Harris.

IN a day and a half at the Mt. Vernon
court our energetic business manager suc-
ceeded in bagging a good deal of cash and
securing 30 new subscribers. This may be
called capital work when we consider that
our subscription list in that section was al-
ready very gratifying, but E. I. never fails
to catch 'em comin' and a twice.

THE elegant residence of Hon. John S.
Owsley was the scene of beauty, gallantry
and mirth, Tuesday night, when Misses
Mattie and Maggie Owsley gave a reception
in honor of their lovely guests, Misses Ma-
mie Porter, of Glasgow, and Mary Lou
Harris, Lavinia Milliken and Martha Gib-
son, of Nashville. A large party went out
from town and with music, dancing and
other means of merry making, several
hours were delightfully spent. The re-
freshments served in Mrs. Owsley's most
excellent style were also a feature that was
much enjoyed. One seldom meets a more
charming quartette than the young ladies
named and they have already established
themselves favorites with the young peo-
ple.

THE Cumberland Valley Land Co. has
employed Col. J. H. Tinsley, of Barbour-
ville, to look after the titles of the 100,000
acres of land that it has options on in Bell
and Harlan counties, and a better selection
could hardly have been made. It is pro-
posed that the number of directors be in-
creased from seven to nine and an election
for that purpose has been ordered for next
Tuesday at the office of Treasurer J. S.
Hocker. The latter gentleman and George
McAllister have just returned from the
counties named above and are very much
pleased with the prospect. Lands along
side of those they have options upon at \$2
to \$3 per acre, are selling at \$10 to \$12,
and they think that the timber on much of
them can be disposed of at these figures
and still leave the land with its wealth of
coal. In addition to those whose names
are signed to the incorporation notice in
this paper, Gov. McCreary, Senator Ben-
nett, John D. White, Judges Robert Boyd
and Vincent Boring, J. A. Craft and other
monied men are members of the Com-
pany.

WHICH?—In looking over the history of
old man Jacob Buell and his connection with
the woman, Mary Curtis, it is hard to tell
whether he was more sinned against than
sinning. Formerly a man of considerable
property, with a wife and six grown chil-
dren, he seems to have been ensnared by
the wiles of a designing woman and once
into the parlor, like the foolish fly, he was
unable to extricate himself. It seems that
near Port Huron, Michigan, he had a dairy
farm and that he employed the woman to
work at it. It was not long before it began
to be whispered that employer and employ-
ee were thicker than their stations sug-
gested and the good people of the vicinity in-
dignantly left the establishment. The old
man, who was past 70, seemed to be per-
fectly entranced by the woman, who is
less than half his age, and although they
quarrelled and fought and he accused her
once or more of trying to poison him, he
could not shake her off or return to the wom-
an he had wronged. He has in five years
spent most of a fair fortune upon her and
it is said that she has worked him for all he
was worth. It is singular that they were
permitted to live in this community in open
concubinage, but we suppose that the
fact that the real state of affairs was not
known prevented an investigation. Mr.
Jenks, the attorney for the family, has gone
to Fentress county, Tenn., where he died,
to find out what he can of his business af-
fairs. County Clerk G. B. Cooper tells us
that when the Waynesburg farm of 191
acres was originally bought by Mr. Buell
for \$1,500 he deeded it directly to the Cur-
tis woman, but that a half dozen deeds
backwards and forwards had been made of
it since. Last fall he came to town and
sending for Mr. Cooper told him to rec-
ord a deed that he gave him as quick as he
could and that he would pay him extra
for his haste. This was a deed of the land
from Mary Curtis to Jacob Buell, but be-
fore the ink had hardly dried on the record
book a telegram was received from the wo-
man protesting against its entry and say-
ing that it was illegal. The deed now
stands from Buell to Renben and Mary
Curtis and the alleged consideration was
\$2,500. As Mr. Buell had a wife and her
name is not to the paper, it is illegal so far
as her dower is concerned.

SOMEBODY gave Judge Carson's monkey
enough whisky the other day to make it
drunk and it went on a general tear. It is
supposed that Gas Dacker is the offender
and if it is found out to be true, he will be
prosecuted under the law against giving a
minor liquor.

BIG SNAKE—Sam Ferrill, a boy of 15,
killed a huge rattlesnake near Mitchell-
burg, Wednesday, which he gave to Mr.
John H. Craig. He was in a few feet of
him and with the first rock that he threw
broke the reptile's neck. Mr. Craig says
Col. Orr and his famous snake dogs were
not called into requisition.

SOME of the prohibitionists are worry-
ing over the fear that the next legislature
will re-submit the liquor question to the voters
of Lincoln. We are sure that their fears
are groundless. We are doing so well un-
der the new order of things that the worst
anti-prohibitionist cannot help admitting
it and for one we shall do all in our power
to have the law remain as it is.

THE New York and Philadelphia Cloth-
ing and Merchant Tailoring Agency of
John H. Craig & Co., with Browning King
& Co., Wanamaker & Brown and Jacob
Reed's Sons offers to the trade large lines
of fall and winter fabrics for men's suits,
trousers and overcoats. Each garment
guaranteed to fit perfectly or no sale. New
York and Paris plate of fashions just re-
ceived.

HALE'S WELL.—Beginning to-day, Fri-
day, August 12th and continuing until the
close of the season, I will reduce the price
of board to \$5 per week; children and ser-
vants half price. Collage rent reduced from
\$5.50 to \$4 per week. Now who can stay
away? If you can't stay a week, come
spend the day. Want everybody to come
before the season finally closes. Respect-
fully, A. L. Spoonamore.

WIFE MISSING.—Sam Huntzinger, the
hard-working Swiss who butchers for Mr.
Ramsey, mourns the loss of his wife, who
deserted him without cause last week, and
has not since been heard from. She is from
the old country and is the second wife of
the deserted man. He went to Louisville
in search of her Wednesday, but learning
nothing he returned. She took their only
child with her. Mr. Huntzinger fears that
she has lost her mind as there was no trou-
ble between them and they had always got-
ten along pleasantly.

WANTED TO BE KICKED.—Uncle Lewis
Russell called in the other day and turning
around in front of us said: "Give me a
good kicking, I deserve it." As we had no
desire to do up our good old friend, we
asked him to explain. "Well, you know
the last time I saw you I said I intended to
vote for Babbitt. I did think I would, till
he made a speech at McKinney, when darn
his ugly picture, I swore I wouldn't do it
under any circumstances. I had always
thought you were too hard on him, but I
know now you weren't and I just want you
to kick me for even thinking of voting for
such a man." The old man then branched
off into a eulogy of Gen. Buckner and the
democratic party and pronounced his male
diction on magwumps and what-nots in
general. Uncle Lewis is a democrat from
the "fur end of away back" and the way
he can go for republicans is refreshing.

CHARGED WITH KU KLUXING.—A few
nights ago, while on a visit to his mother,
in Crab Orchard, Mr. Simon H. Gormley,
of Lexington, was robbed of \$120. Sus-
pecting the negro cook, he, with Whit
Montgomery, Sam Tate, Tom Carson and
Joe Magee started to look for her and
coming across Morgan Baughman and Tom
Welch, with whom she was intimate, they
took them in charge and continued the
search. They kept them from 10 at night
till 4 next morning and in the Deep
Well Woods endeavored with threats and
other means of intimidation to force them
to tell the whereabouts of the woman. The
negroes claim that they tried to hang them
and told them that their time had come.
One attempted to get away, but on being
shot at, desisted, while the other put in his
time praying. Squire Larken Wells, after
hearing the evidence on both sides, acquit-
ted the accused, but held them for a breach
of the peace. They were immediately tried
by a jury and also acquitted of that charge.

PROMOTIONS.—Capt. Frank Harris, who
has been Chief Train Dispatcher on the
Knoxville Division for several years, re-
ceived a flattering notice from headquar-
ters this week of his promotion to Master
of Trains on the St. Louis division of the
L. & N., with office at Evansville, Ind. No
man ever served a company more loyally than
Capt. Harris and no man in the ser-
vice is more deserving of honorable recog-
nition by it. A thorough gentleman in ev-
ery respect, he has won to him every man
on the road and established himself in the
good will of every citizen of Stanford, and
all with one accord, while rejoicing in his
good fortune, will regret that he will no
longer be one of us. Good luck to him al-
ways. Mr. J. C. Florence, who had the
"second trick" in dispatcher's parlance, has
been promoted to Chief Dispatcher. This
is also a most deserving promotion. Start-
ing on the road a few years ago in a hum-
ble position, he has by diligence and close
attention worked himself up to one of the
most important and his friends here, where
he cast his lot a number of years ago, look
at his record with pride and satisfaction.
Mr. Matt Woodson succeeds to his "trick"
and a dispatcher from Montgomery will
take the third. We were in hopes that Mr.
T. F. Spink would be returned here, but as
he is in direct line of promotion in the
Louisville office, it is not likely that he
will be to leave.

The best remedy for chicken cholera ever
introduced here is Ganten's Chicken Chole-
ra Cure. Try it. Sold by all druggists. 2t

RELIGIOUS.

—Rev. F. S. Pottier, who has been sick
in Mason county, has recovered and will
preach at his church here next Sunday.

—The Woman's Christian Temperance
Union are preparing to erect a \$600,000
building to Chicago to be used as National
headquarters.

—Mrs. John Shrouse, of Lexington, has
been elected President of the Christian Wo-
men's Board of Missions for Kentucky, vice
Mrs. Richard Reid, resigned. The board
is composed of 39 auxiliary bodies, located
in different parts of the State.

NEW ADVERTISEMENTS.

BANK STOCK!

Fifty Shares of Farmers National
Bank of Stanford for Sale.

I will sell the above stock before the Court-
house door in Stanford, County Court day, Sept.
5th, 1887.

M. P. SALLER,
Administrator Rachel Jones, dec'd.

THE KENTUCKY

Agricultural and Mechanical
Association.

F A I R.
LEXINGTON, KY.

Aug. 30, 31, Sept. 1, 2, & 3.

COMPETITION OPEN TO THE WORLD.

Special trains at reduced rates on all Railroads
Two Races Each Day.

THE FLORAL HALL.

which is the leading feature, will be open in all
its grandeur on the first day, and surpass all pre-
vious occasions.

FREE ADMISSION!

No admission will be charged to ladies, or chil-
dren under 12 years, on the first day.
Remember the

GRAND MILITARY COMPETING
DRILL.

On the first day by Knights of Pythias, Knights
Templars and State Guards.

From Hall and other noted places will attempt
to lower the stalling record on the second day.

For further information, address
M. J. P. JOHNSON, Pres.,
THOS. L. MARTIN, Secretary. (25-26)

Administrator's Sale!

As Administrators of Mrs. A. E. Gover, we will
sell at her late residence on the Harrodsburg pike,
3 miles from Stanford and 1 mile from Turners-
ville, on

Thursday, August 25, 1887,

The following property:

Three 2 and 3-year-old mules, 1 brood Mare, 1 5-
year-old Jack, 1 extra family rockaway Horse,
4 Cows and calves, 1 yearling heifer, 5 yearling
steers, about 25 head hogs, a two-horse Wagon,
Household and Kitchen Furniture.
TERMS: All sums of \$10 and under Cash, over
that amount credit of 90 days with 6 per cent.
interest on negotiable note payable to bank.

DR. J. K. VANARSDALE.
J. F. GOVER,
Administrators Mrs. A. E. Gover, dec'd.

As agents of the heirs of Mrs. A. E. Gover, we
will sell at the same time and place, the home
place, consisting of

70 ACRES OF LAND.

Fine improved, well watered, good Orchard and
a very desirable small place in every particular.
The dwelling is two-story, with seven rooms, there
is splendid barn and good ice-house. Terms in de-
tail known on day of sale. DR. J. K. VANARSDALE,
J. F. GOVER, Agents.

At the same time and place, I will sell 12 head
of good feeding cattle, 12 head good Cotton
Bales, 10 head Work Mules and 50 head Sheep.
J. F. GOVER, Agents.

FOR
MAN
AND

BEAST!

Mexican
Mustang
Liniment

CURES

Sciatica, Lumbago, Rheumatism, Burns, Scalds, Stiff Joints, Backache, Galls, Bites, Bruises, Bunions, Corns, Contracted Muscles, Eruptions, Hoof Ail, Scurf, Worms, Swiney, Saddle Galls, Piles.

THIS GOOD OLD STAND-BY
accomplishes for everybody exactly what is claimed
for it. One of the reasons for the great popularity
of the Mustang Liniment is found in its universal
applicability. Everybody needs such a medicine.
The Lumberman needs it in case of accident.
The Housewife needs it for general family use.
The Cannibal needs it for his teams and his work
bench.
The Miner needs it in case of emergency.
The Pioneer needs it—can't get along without it.
The Farmer needs it in his house, his stable,
and his stock yard.
The Stockman or the Boatman needs it
in liberal supply aboard and ashore.
The Horse-fancier needs it—it is his best
friend and safest reliance.
The Stock-grower needs it—it will save him
thousands of dollars and a world of trouble.
The Railroad man needs it and will need it as
long as his life is a round of accidents and dangers.
The Backwoodsman needs it. There is nothing
like it as an antidote for the dangers to life,
limb and comfort which surround the pioneer.
The Merchant needs it about his store among
his employees. Accidents will happen, and when
these come the Mustang Liniment is wanted at once.
Keep a Bottle in the House. 'Tis the best of
economy.
Keep a Bottle in the Factory. Its immediate
use in case of accident saves pain and loss of wages.
Keep a Bottle Always in the Stable for
use when wanted.

WALSH, THE TAILOR,

232 FOURTH AVENUE.

LOUISVILLE, - - KY.

P. S.—FINE GOODS EXCLUSIVELY.

FLORENCE WASHING MACHINE.

The most perfect Machine ever invented. Wonderful saving of labor and easily operated. Read
the following testimonials from ladies of Harrodsburg and vicinity:

This is to certify that we are using the Florence Washing Machine and think it the only Machine
we ever saw that will do it all. It saves clothing and labor and is well worth the price paid for it.
Mrs. J. M. Cook, Mrs. D. W. Staggs, Mrs. S. F. Cowan, Mrs. Sam Reid, Mrs. J. P. Rife, Mrs. T. J.
Robinson, Mrs. George W. Rife, Mrs. J. T. Rose, Mrs. G. C. Lyons, Mrs. S. G. Drye, Mrs. Mag. Dunn,
Mrs. Joseph Coffey, Mrs. J. K. Baughman.

Now is your chance to secure the best Machine of the age.

We also have testimonials from the following Stanford Ladies: Mesdames Sam Owens, T. S. Do-
oley, Kate Hays, S. S. Myers, G. G. Wine and Mary Straub.

FLORENCE WASHING MACHINE CO., S. P. McALLISTER, Business Manager,
Headquarters at Dr. Bourne's, Stanford.

DR. S. G. HOCKER. JOHN BRIGHT, JR.

HOCKER & BRIGHT,

(SUCCESSORS TO W. H. HIGGINS.)

We will continue to handle the justly celebrated and most popular
COOK STOVES and RANGES in the Market. Full line of HARDWARE,
WAGON MATERIAL, GROCERIES, SALT, LIME, CEMENT, FLUE TIL-
ING, &c.

In FARMING IMPLEMENTS we will still place the OLIVER CHILL
PLOW in the lead of all others, where it justly deserves to be. Ask your
neighbor in reference to its superiority. No steel plow in the market
equal to the IMPERIAL.

Examine the BRINLEY COMBINATION PLOW & HARROW. In the
PUMPS' line we know the BUCKET PUMP ELEVATOR has no equal. All
we ask is to give it a careful examination and trial and you will not have
any other, ALASKA REFRIGERATORS and ICE BOXES.

W. B. McKINNEY, Salesman.

H. C. RUPLEY,

MERCHANT TAILOR.

—I have received and still receiving—

New Goods for Spring and Summer

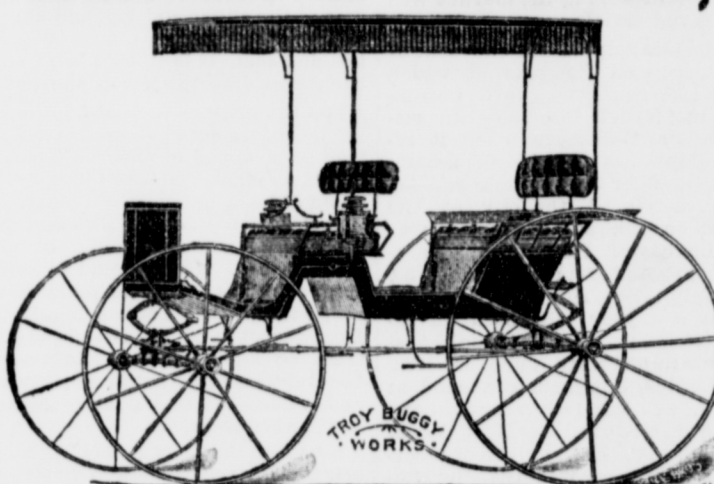

Comprising the best in the market, which will be

Gotten Up in Style and Make Second to None in City or Country

Give Me a Trial.

H. C. RUPLEY.

WEAREN & MENEFEE,

Dealer in Fine Buggies, Carriages, Surreys,
Phaetons, Spring Wagons, Buck Boards, Road
Carts, Farming Implements, Engines, Mills,
Grain, Feed, Seeds, Coal, Lumber, Doors, Sash-
Blinds, Picket Fencing, &c. Our Stock of Ve-
hicles is larger and more complete than ever be-
fore, from the cheapest to the best.

All of work guaranteed as represented. Prices to
suit the times. We can sell you as good vehicles as
any dealer or manufacturer and for as little money.
Come and see our fine assortment before it is broken.

WEAREN & MENEFEE.

J. B. GREEN, Agt., Hustonville, Ky.

Queen and Crescent Route.

(Cincinnati New Orleans and Texas Pacific Railway.)

Shortest and Quickest Line to New Orleans, Florida,
South East, Texas, Cuba, South West.

JOURNAL EXTRACTS.

It is computed that ten years hence Brooklyn will have a population of one million and New York City two millions.

In describing the manner in which an alligator makes a meal, a sojourner in the South says his "gatorship" reclines at ease with his jaws distended for the accommodation of unconscious animals, reptiles and insects that find an entrance, when, having concluded that there is a good mouthful assembled, he shut down on them, and after introducing them to his anterior, repeats the performance.

It is the opinion of practiced observers of human life that the man who lives the longest is the one of medium size, with slightly florid complexion, short neck, rounding instead of square shoulders, large hands and feet, deep chest, and with the bump of alimentiveness well developed. This sort of man is slow to anger, calm and meditative, and is not the one to make mountains of mole hills.

While fishing in a mountain stream in the Gunnison valley, Col., an observing gentleman witnessed the singular death of a large number of newly-hatched trout. When one of these came to the surface of the water, a mosquito would fly at him and drive his trunk into the little creature's brain. When the mosquito flew away the little fish turned over dead. In the course of half an hour, the observer saw some twenty trout killed in this way.

A rare and beautiful breed of milch cow known as the "Dutch-belted" breed, is being introduced into this country, which, it is said, is the highest attainment of scientific breeding ever reached. It is a native of Holland, in which country the breed is owned exclusively by the nobility. The peculiarity of the cattle is a broad, white belt around the body, the rest of the animal being entirely black. It is said a view of these animals grazing in the lowlands of Holland is a truly imposing sight.

This first violin is said to have been elaborated from an ancient violin in the sixteenth century. Gaspario di Gale was the first celebrated maker, after whom came Andrea Amati and his sons Jerome and Antonio, who maintained the reputation of the Cremona school. Nicolas, the son of Jerome, excelled his predecessors in the art, and produced the sweetest sounding instrument of that day. Subsequently Stradivarius, a pupil of Nicholas Amati, attained a world-wide reputation for superiority in the art of violin-making, and his instruments are in many cases priceless.

It is related of an enterprising German confectioner who traveled to Constantinople in search of employment, that in a singular manner he obtained and now occupies the position of pie-maker to the Sultan at a very comfortable income. As the result of much pertinacity the confectioner was set to making pastry as a test of his power in the art, and his success was so complete that he was engaged right off at a salary of 500 piastres a month. But better luck still awaited him. The pastry found its way to the Sultan's table and his Highness was so pleased with it that he made the stranger from Germany his confectioner at once, with 1,000 piastres a month for making pies.

When a person is to be told that a dog could tell a lie they would regard it as a strange assertion, yet such a thing is possible as was demonstrated by a Chicago dog recently. He was taught to go to market with a basket in his mouth, and when the article desired was not obtainable, to make it known by barking. On one occasion he set the basket down to attend to another dog that had offered him an affront, and it was carried home by an acquaintance of the family. Upon discovering his loss the dog was very much discomfited, but rushing home he secured an old basket from the yard, and depositing it at the feet of his mistress, went through his dog manner of saying the market was out of the desired article.

The city of Philadelphia was the seat of the first Continental Congress, at which place its sessions continued until December, 1775. Until March following its sessions were held at Lancaster when it resumed Philadelphia as its point of assembly. In September the British success at Brandywine placed the city at the mercy of the enemy, and Congress was removed to Lancaster, Pa., where its sessions were continued from September 30, 1777, until July 1778. The 24th of July of the last mentioned year witnessed its return to Philadelphia, where its deliberations were continued until June 30, 1783. November 26, 1783, Congress convened at Trenton, N. J., and the following January its sessions were removed to New York, which continued to be the place of meeting until 1793. Here it was that the constitution was adopted and the first Federal Congress assembled under that constitution, with George Washington President, in March, 1789. In 1790 Philadelphia became the capital for ten years, and in 1800 the capital was removed to Washington.

Long before the age of chivalry quaint ideas were extant regarding feathers, and some of our well-known sayings owe their origin to the waving plumes. "To plume one's self" comes from the Hungarians, who placed in their caps a feather for each Turk killed, and therefore were decorated according to valor. The use of the white feather as a sign of withdrawal from a contest, and in strikingly contrasted from the fact that in leaving the field the white feathers were the most easily seen. The East Indians and the North American Indians believe that feathers endow their owner with the virtues of the bird from which they are plucked, and as the peacock is vain, arrogant and greedy, he can scarcely endow one with all these virtues. The Tartars firmly believe that he who touches a beautiful woman with a kingfisher's feather will gain her love. People who can appreciate the beauty of the fine ostrich feathers can imagine the appearance of helmets formed entirely of them; and yet they were so used by the ancients without a thought, apparently, of their ornamental value.

CALIFORNIA'S vineyards are attracting the attention of the world, yet few who have not visited the wonderful State can realize their full extent. As an example, the vineyard of Senator Stanford is here described: It extends for several miles up and down on each side of the road as you approach Vina, and back from the road as far as the eye can reach. In some places the vines are large, in others they have just been set out, and in the latter case they are supported by an army of stakes. This vineyard contains 3,500 acres, and is the largest in the world. More vines are being set out every year. The prettiest sight of all are the old Greek vines, which form the nucleus of vineyard. These vines are all old and stand fully five feet high. The trunks are larger than a man's arm. The branches are trimmed off at the bottom and allowed to grow out at the top, until the vineyard looks like an orchard of young peach trees, and they are all pruned off so evenly that they make one level floor of green as the eye glances across them. The vines already in bearing require the attention of several hundred men to take care of the grapes they produce, and it will take a small army of men to attend the crop each year when all the vines get to bearing.

FAMILY SUGGESTIONS.

POLYMERIZED charcoal is recommended as an excellent cleanser of knives and kitchen utensils.

Melted ice often serves as a substitute for distilled water in any but the most delicate operations.

The beauty of hardwood or stained pine floors depends upon their being kept bright and free from dust; sweeping with a hair broom every morning and washing once a week will secure this. When there is much dust a damp cloth must follow the broom.

An excellent method of destroying ants when they infest the premises is to saturate a sponge with some sweetened liquid and place it accessible to the insects. When they discover it they will swarm through it, when it may be thrown into boiling water.

People who can not drink cold milk often find it palatable and beneficial when taken as hot as possible. Upon heating and over-worked persons it has an exhilarating effect. The milk should be fresh and heated as hot as possible without boiling.

Ivory may be cleansed with a new soft tooth-brush, soap and tepid water, then dry the ivory and brush well, dip the ivory in alcohol and polish the ivory until it has regained its former sheen. If the water gives the ivory a yellowish tint, dry the object in a heated place. If age has yellowed it place the object under a ball-jar, with a small vessel containing lime and muriatic acid; set the whole in the sun.

Flowers may be preserved indefinitely by being placed in water in which a small quantity of spirit of chloroform has been dropped, in an airtight vessel with a glass shade covering. Take, for example, a soup plate, place the flowers in the water, adjust the shade and fill above the edge with water, so as to render it airtight. It is said flowers may be preserved in this manner for months.

A superior cement for fastening knives and forks into their handles is made by melting one pound of colophony, boric acid, and eight ounces of sulphur. It may be kept in a jar or reduced to powder. Take one part powder and mix with iron filings, fine sand or brick dust, and fill the cavity of the handle, then heat the stem of the knife or fork and insert. When cold it will be found to be firm in its place.

Ivory ink for marking linen is made as follows: Dissolve one-fourth ounce of nitrate of silver in one ounce of water and add strong liquid ammonia until the precipitate first formed is redissolved. Add one and a half drachms of gum mastic and enough finely powdered indigo or other coloring matter to render the writing clearly visible. The writing is made black and indelible by passing a hot iron over it. For fine work buy ink especially prepared for artists' use in etching.

LATIGHER in the house is a sure cure for the many ills, imaginary ones, that assail the domestic circle. The woman who has a bright cheerful disposition dispels one-half of those that are real. She may not be the best house-keeper; the broom may not always be light or the potatoes done to a turn, or the buttons always in place, but one forgets them when she is by in her readiness to make the best of everything as it comes. Home in a measure is what the presiding spirit of the house makes it, the brightest or the gloomiest spot on earth.

TO MAKE a raspberry sherbet use five quarts of red raspberries, two quarts of wine vinegar, eight pounds of granulated sugar. Gently mash the berries, put them into a porcelain-lined kettle, add the vinegar and stir three times a day for a week, keeping the kettle well covered meanwhile. Strain it through a close flannel cloth. Mix one pound of sugar with the seed pulp, work it well and strain. Put all the syrup together into the kettle, and the rest of the sugar and boil and skim till the skum no longer forms, then bottle, while hot, and seal. It is diluted with cold water and drunk like the lemon sherbet.

For the preservation of household stores the following suggestions are made: Hams may be wrapped in paper and packed in a barrel of ashes. Smoked ham or beefsteak being cut can be hung in a coarse linen bag tied closely to keep out flies and hung in a cool place. Cheese should be kept in a tight tin box. Cakes should be kept in tin or wooden box. Bread should not be exposed to the air. Codfish should be moved from garret to cellar. All salted provisions must be kept under the brine. Decayed vegetables should not be kept in the cellar and cellars should be whitewashed to be kept sweet and clean.

A rug and most rug may be made with bright pieces of worsted cloth. Old sails make a very good foundation on which to sew the strips of carpet. A nice size for a large rug is a yard and a half long by three-fourths wide. Cut the pieces of carpet on the bias, two inches wide and as long as the pieces of carpet. Bring each edge out half an inch. Put two of these strips together, one on top of the other, and then sew them together lengthwise on the foundation. Make other strips and sew them so closely on the foundation that it will be entirely covered and the fringe ends will form a thick mat.

MANY a passionate child rules the household. The little baby on its mother's knee goes into passion because its dinner is withheld from him, or some toy denied him. He shrieks and strikes his mother, and the mother says: "Poor little boy, he has such a passionate nature; he can't be crossed," and yields to him. She ought to spank him—spank him hard—for being in a passion, and give him nothing till his passion has cooled. The child, though he be so young that he can not speak, if he were old enough to lift his fist and strike a blow, deserves punishment, needs to have a lesson of repression taught him.

TASTY satchets are made of three shades of gros grain ribbon. The ribbons are frayed to form a deep fringe at the bottom and are joined to form a bag, which is filled with cotton wool sprinkled with the favorite perfume powder. Fancy stitching is made on either side of all this seams; the top of the bag is faced with silk, and far enough below the top to form a full, pretty frill it is closed by a wide feather edged ribbon, that is gracefully tied with an immense bow, the words "Birth-day Greeting" embroidered in bullion, decorating the loops. Any preferred colors may be selected for the satchets, three shades of heliotrope, green, blue or yellow being especially very effective. The ribbons may be of different colors.

SOME persons claim that they cannot digest chocolate, while others say it does not nourish them, but in the former case it is very likely that inferior or badly made chocolate has been used, while in the latter it is probable that they do not eat heartily enough of other food. Let any one who has any digestive power left eat a hearty meal and then drink a large cup of good, well-made chocolate, and three hours afterward everything will have been perfectly digested. It is an easy thing to experiment, and if any man who has indulged too freely in wine, or who has been deprived of sleep, find his faculties dulled, time hanging heavily on his hands, the weather unendurable, will drink a pint of the best chocolate, well made and mixed with amber, the result will prove delightful.

HOOKED-NOSE SALMON.

One of the Most Unique Bear and Fish on the Coast.

The Caribou river is a wild, rugged stream, fed by the great glaciers at the base of Mount Tacoma. It tears down through a region indescribably grand and picturesque, and as it rushes onward toward Puget Sound other streams join it until it is a broad and sweeping affluent. Almost all the way along this river fish and wild animals of many sorts are to be found in abundance.

Henry Thornley, of Carbonado, is at a down-town hotel.

"Did you ever hear," said he the other day to a San Francisco Examiner man, "how the bears fish for salmon on the Caribou river? They do for a fact. I live on the margin of the river, and I pledge you my word that in the Bottomless canyon, twelve miles from my home, I have seen as many as three bears within a scope of a mile sitting at the river's brink and fishing as industriously as any man you ever saw. Others in the same vicinity have seen many of them oftentimes. They are black bears, and live in the thick woods along the stream.

The fish they particularly like are the hook-nosed salmon, a large fish, not well liked by most persons on account of their age. The fish get up in the Caribou river, and being unharmed by men, stay there. The noses of the old ones are long and hooked.

"The bears sit on the side of the stream, watch their chance and swipe them up as they come along. There's a great many in the river, and being largely unmolested, they are pretty tame. The bears often rake out fish there that are a couple of feet or more long.

"Well, so many of these hook-nosed salmon that the bears can't get them all. The result is that it is an almighty country for bears, too. There are lots of them, and they are as fat as butter. From one end of the Caribou river to the other bears in profusion are to be found.

"Myself and Tim Worthington of Wilkeson killed last January in a three-days' hunt nine bears, and we could have killed a great many more if we had wanted to. The bear meat is not tainted up with the taste and smell of fish so much in January as at other times of the year. But we didn't save all the meat. It would have been far too much trouble to get it down.

"Three or four hunters left for up there the following month and they got somewhere about thirty bears before they stopped. Like us, they were principally after the skins.

"The worst far up in the snow only a short distance from the glaciers and had to bring down their meat and skins on toboggans.

"They had no accidents, but they run several narrow risks. It is rather dangerous hunting for bear in that region. The country is so new and wild that men are rarely seen and the bears have it all their own way except when they collide with other wild animals, and when they do it is never to their advantage.

"There are a few grizzlies there, with plenty of mountain lions and smaller game."

IN A TERRIBLE PLIGHT.

A Swell Society Woman Discovers That Her Costume Is Washing Off.

The women under the parasols one day on Coney Island soon discovered that something was wrong, says the New York Star. As Mrs. B. took a souse up and down—she was not an expert swimmer—it was noticed that surrounding her the water took on varied colors.

"The dye is coming out of that gown," said one.

"I should say so," screamed another, "why, she'll dye us all."

"Never say dye," said a third; "rather will she be the multitudinous sea incarnate!" But here she stopped, for one of the red splashes landed on her white suit, and it was seen that a figure had come off intact.

"Why, Mrs. Billings," some one cried, "those patterns were just stuck on!"

Here some one caught hold of the dress. It turned a soft mass in her hand.

"Heavens!" yelled Mrs. B., "it's washing off!"

"Squirt down in the water!" screamed one.

"Fetch an umbrella!"

"Bring a barrel!"

"Who's drowning?" sang out Duncan De Witt De Wolf, the swell man of the party, dashing in among them.

You can't imagine what an excitement there was. Those on shore leveled their glasses, and every one in the water swam up. There was Billings all but melting into pulp. De Witt De Wolf ran up to the bath houses and got one of the old blue jeans things they rent for twenty-five cents to the men, and came back with it, and poor Mrs. Billings got into it and scuttled out of the water as soon as she could. Gobs of that Japanese dress were washed ashore, and most every one had a little red and green worsted ball that came off the scullions to keep as a souvenir. The Japanese stuff was made of paper, it seems, and began to resolve itself the minute it was wet into the pulp it was originally composed of. It was a narrow escape for Mrs. Billings.

THE WRONG CARD.

Fortune and Happiness Lost by a Single Inevitable Blunder.

We have all some sad moments in our lives, sad secrets that are not immoral or criminal or anything like that, says a writer in the San Francisco Chronicle, but simply moments of unhappy accident or painful stupidity. Don't you recollect, for instance, the time when your best girl wanted you to take her to the theater and you wrote to her you were very sick and confined to your bed, and her younger brother told her next morning he had been out at a prize-fight with you?

Don't you remember, and kick yourself when you think of it, the time you wanted to show her the pretty letter you had from your mother about her, and you gave her instead a dunning note from the jeweler for the handsome bracelet you gave her as a present on the Christmas before? There are worse contraptions that you recollect occasionally, I know, but they would not look pretty in print.

I am reminded of the subject by the absent-mindedness of a fellow who dressed himself up in his best and went one evening to call upon the pretty daughter of a rich man, upon whose fortune he was building great hopes of future happiness. He rang the bell, handed his card and was shown into the parlor. In a minute the old gentleman himself came down with the card in his hand.

"We are very glad to see you, Mr. Jones, but I don't think you intended this card for us."

It was a pawn-ticket.

A CUSTOM with P. T. Barnum is to advise every man who has a wife to give her a signed "emphatic" pledge as a New Year's gift.—N. Y. Mail.

Drunkenness or the Liquor Habit Positively Cured by administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it; it is absolutely harmless and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge, and to-day believe they quit drinking of their own free will. IT NEVER FAILS. The system once impregnated with the Specific it becomes an utter impossibility for the liquor appetite to exist. For full particulars, address GOLDEN SPECIFIC CO., 185 Race st., Cincinnati, O.

ROYAL BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and can be sold more competitively with the multitude of low test, shoddy weight alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 106 Wall Street, New York.
